UNLESS OTHERWISE SPECIFIED:		NAME Ryan G.		DATE 1/31/20		TITAN ROVER							
DIMENSIONS ARE IN INCHES TOLERANCES: ±0.005		DRAWN				SYSTEM: Science							
		CHECKED		Checked by									
		ENG APPR.											
INTERPRET GEOMETRIC TOLERANCING PER: MATERIAL: 6061-T6		MFG APPR.											
		Q.A.											
 DO NOT SCALE DRAWING		COMMENTS: Nominal dimensions are real for height, thickness, and length. All but the 5x .257" holes and the two slots could ultimately be removed in a revised version of this part. The targeted height and length was 7"x15", but waterjetting had some weird results.
